OVERVIEW

For the past 3 years I've been a front-end developer working daily to bring designs and experiences to life. I like contributing to a team who is open to feedback, passionate about learning from each other, and solving problems together.

TECHNICAL EXPERIENCE

Programming Languages: PHP, Liquid, Javascript, Less, Sass, HTML, CSS,

Platforms & Frameworks: Git, Wordpress, Bootstrap, Shopify, Woocommerce

EMPLOYMENT HISTORY

Front-End Web Developer, Huemor Designs, Farmingdale, NY — January 2015 - Present Day
Successful launch, customization, and improvement of several e-commerce brands.

Write maintainable, scalable, responsive, progressively enhanced, and cross-browser code.

Convert designs into front-end code, estimate time and costs, and evaluate development requirements.

Communicate new ideas, process improvements and new technology to team & leadership.

Collaborated with creative team on the execution of ideas on projects.

Updated and improved existing code to improve site performance.

Technician, Apple, Albany, NY — July 2011 - May 2014
Hardware, software, and troubleshooting on all Apple devices.

Trained new team members & customers on software, devices, and repair techniques.
